

Discover Italian Exhibitors at Kitchen & Bath Shanghai 2019

27th – 30th May 2019

Shanghai New International Exhibition Centre

ACOP COMPONENTS S.R.L.

STAND N2 A73

We produce wooden and veneered doors, 100 % made in Italy for the furniture industry: kitchens, living, wardrobes and bathrooms. We have been on the market for 35 years with a productive area of 36000sqm with 5 buildings and 80 employers. We have integrated our doors production with tops, sideboards, folding cabinets and other components to offer our customers a more efficient service.

Our modern, classic or Luxury doors born from solid wood boards of the best quality. The FSC and PEFC certificates guarantee the eco-sustainability.

Our products undergo performance test which are certificated by CATAS the biggest Italian Institute for research and certification in wood manufacturing industry.

Waiting for you at our stand N2 A73

antoniolupi **ANTONIO LUPI**
STAND N5 D03

On the eve of its 90th birthday **antoniolupi** has distinguished itself on the Italian and International markets for their bathroom furnishings projects. A reality that continues to develop due to investments in technology and creativity as well as collaboration with international architects and the capability of design and innovation.

Although antoniolupi began by producing exclusively bathroom accessories and mirrors, its product line now embraces the entire living space, thanks to the collaboration with established designers.

High quality product, customer care and a vast assortment of collections offered are the key elements that together with a deep passion for work guide the Lupi family in their choices.

The company has chosen tailor-made production over mass production in order to meet all sorts of requirements and to offer unlimited options for customization.

From a small family-run company to an industrial enterprise operating in more than 46 countries the world over: in 30 years of work we have grown and evolved while maintaining a constant focus on quality materials, advanced design, and ability to respond to constant input from the market.

Making kitchens that respond to consumers' functional and aesthetic needs, using production processes capable of guaranteeing high levels of quality and dependability and maintaining them over time: Careful control of all company processes is an integral part of a certified protocol guaranteeing constant quality standards.

Meg expresses a new trend in taste. An innovative concept in contemporary style, reinterpreted starting with meticulous details. Brass or titanium details and accurate research harmoniously merge for striking appeal, creating contexts with a bold character. The distinctive feature of the door has been designed with the minimalist relief of the frame, a refined intentional detail to allow the utmost freedom of expression for various styles.

Kronos is a sophisticated design project that combines cutting-edge technical features with fine materials in order to create timeless contexts.

The doors in the Kronos collection feature a titanium painted aluminium frame with a panel available in six materials: laminate, HPL, Fenix-NTM®, wood, glass or Laminam. Light and practical, the doors easily open thanks to an integrated grip handle at the top or bottom.

Determined, dynamic and modern: the characteristics of Kronos meet the customer needs while reflecting the heart of the company.

Lapitec® is a supreme example of a construction material developed by employing advanced scientific manufacturing techniques. Not a natural stone, neither an artificial quartz stone nor a ceramic or a porcelain but a unique product now defined as a Sintered Stone.

Its composition is 100 % mineral with no resin or hydrocarbon based binder components. Lapitec® is resistant to high temperatures, unaffected by moisture, resistant to UV light, unaltered by acids, self-cleaning and bacterial resistant. The product's hardness also makes it resistant to scratching, abrasion and everyday wear and tear.

CUCINE LUBE **STAND N1 B01**

The company was established in the year 1967 thanks to the experience and insight of its two founders, and soon became renowned for the quality of its products and the aggressive business strategies.

The LUBE Group nowadays includes the Cucine LUBE and CREO Kitchens brands and is the number one Italian kitchen company, both for the turnover (over 200 Million Euro/year) and the manufactured kitchens (over 85.000/year).

Lube confirmed its leadership in the market also in the year 2018 with a constantly growing turnover. The heart of the growth strategy is the Store concept, with over 400 stores inaugurated worldwide only in the last 12 months: among the list stands out the inaugurations of mono-brand stores in Paris, Versailles, Ljubljana, Cordoba, Seville, Dublin, Muscat (Oman) and Shanghai.

Cucine Lube offers wide collections, ranging from classic to modern models and including 480 different finishes. The Lube strength is the flexibility, meaning as the capacity to satisfy every request of the client from the sides of style, finishes and customization of the measures requirement.

Visiting the Cucine Lube stand at the K&B China 2019 in Shanghai, visitors can admire personally some great compositions of Cucine Lube modern collection.
